COVID-19 Treatment Consent Form

I, _____ (Patient or Parent/Guardian), knowingly and willingly consent to have dental treatment completed during the COVID-19 pandemic.

I understand the COVID-19 virus has a long incubation period during which carriers of the virus may not show symptoms and still be highly contagious. It is impossible to determine who has it and who does not given the current limits in virus testing.

Dental procedures create water spray. The ultra-fine nature of the spray can linger in the air for minutes to sometimes hours, which can transmit the COVID-19 virus.

- I understand that due to the frequency of visits of other dental patients, the characteristics of the virus, and the characteristics of dental procedures, that I have an elevated risk of contracting the virus simply by being in a dental office. _____ (Initial)

I confirm that I am not presenting any of the following COVID-19 symptoms: _____ (Initial):

- Fever and Chills
- Shortness of Breath
- Dry Cough
- Runny Nose
- Muscle Pain
- Sore Throat
- New Loss of Taste or Smell

I understand that the CDC recommends social distancing of at least 6 feet for a period of 14 days to anyone who has, and this is not possible with dentistry. _____ (Initial)

For your safety, our office has increased hygiene, contact, and personal protection equipment measures since the outbreak.

I understand that the doctor and office staff have answered all my questions regarding COVID-19, as well as the infection control standards the office has implemented. I voluntarily wish to continue with my elective dental treatment and hold the doctor and staff harmless should I develop any COVID-19 symptoms within the next 14 days.

Patient Name: _____ Date: _____

Patient/Guardian Signature: _____
